

SYED ALI MURAD TAHIR

Wirtschaftsinformatik student specializing in Data Science at TU Berlin

@ syed.alimurad.tahir@gmail.com stahir01
+49 15252906492 in Syed Ali Murad Tahir

EXPERIENCE

Business Intelligence - Working Student

Getsteps

12/2022 - 04/2023 Berlin, Germany

- Design and implement data pipelines in PostgreSQL
- Perform Extract, Transform, Load (ETL) processing to extract data from various sources using SQL and dbt
- Adjust current data marts and reports by adding new columns and KPIs
- Design multiple dashboards using Metabase that were used by the marketing team in making informed business decisions
- Design a whole new organizational structure to increase transparency in datamarts

Business Intelligence - Working Student

Europcar Mobility Group

09/2021 - 11/2022 Hamburg, Germany

- Design reports in SAP BO and Data Studio
- Adjust and create new data marts using SQL
- Create data pipelines using SQL
- Adjust existing and develop new VBA macros in Excel and Access.

Software Developer - Business Intelligence

Rohde & Schwarz

04/2021 - 07/2021 Islamabad, Pakistan

- Generate one-off reports for product management (eg. debug and understand a hardware issue or backup product concepts with actual data)
- Perform Time series forecasting for analyzing sales using Tableau

PROJECTS

- Enhancing Movie Recommendations with Behavior Sequence Transformer**
Technologies: NumPy, Pandas, TensorFlow, Keras
- Large Language Models for Reliable Berlin Public Administration Answers**
Technologies: LangChain, TensorFlow, Hugging Face
- Financial News Sentiment Analysis**
Technologies: Numpy, Pandas, Circlify, Sklearn, TensorFlow, Keras, NLTK, Matplotlib
- Designing Seq2Seq Translation Model (English to Bulgarian) with Attention Mechanism**
Technologies: Numpy, Pandas, Circlify, Sklearn, TensorFlow, Keras, NLTK, Matplotlib
- Semantic Segmentation for Biomedical Image Segmentation**
Technologies: Numpy, Sklearn, Pytorch, Matplotlib

EDUCATION

M.Sc. Wirtschaftsinformatik

Technische Universität Berlin

10/2021 Berlin, Germany

B.Sc. Electrical and Computer Engineering

Jacobs University Bremen

09/2017 - 09/2020 Bremen, Germany

LANGUAGES

C C++ Python SQL HTML

TOOLS

VS Code Pycharm Linux Git
Ubuntu LaTeX Tableau Metabase
Looker Studio Google Colab
Jupyter Notebook BigQuery SAP
dbt Airbyte

LANGUAGES

English - Native
Hindi/Urdu - Native
Deutsch - A2

PROJECTS

- Customer Segmentation using Deep Learning**
Technologies: Numpy, Sklearn, TensorFlow, Keras
- Stock Price Prediction using LSTM & Fbprophet**
Technologies: Python, Numpy, Pandas, Matplotlib, Seaborn, Tensorflow, Keras, Sklearn, Statsmodels, FBProphet
- Customer Churn Prediction using Esemble Learning**
Technologies: Numpy, Pandas, Matplotlib, Sklearn
- Time Series Forecasting using ARIMA & Linear Regression**
Technologies: Numpy, Pandas, Matplotlib, Seaborn, Sklearn, Statsmodels
- Analyzing car rental dataset using SQL**
Technologies: SQL, Jupyter Notebook
